

***Yard Air Test Device
"Queen Mary"
Part: 2310047A***

Technical Data:

Make: IPS
Weight: 10 lbs.
Dim.: 6.5" x 25" x 3.5"

- Manufactured with heavy-duty, industrial fittings and valves
- 160 psi gauge
- Full sealed and leak tested
- Safety yellow paint finish
- Designed for $\frac{3}{4}$ " diameter air lines and $\frac{3}{4}$ " glad hands

Description: IPS specializes in repairing damaged air yard test devices and can also supply new yard air test devices. The "Queen Mary" device shown here is vital for charging pneumatic circuits on trains awaiting departure, testing the systems to confirm brake safety, preventing cars from running 'dry', and reducing the dwell time of cars in a yard while hook-up is accomplished.
