Dim.: 15" x 6" x 28"

- Cast from high strength alloy steel.
- Jaw profile designed to handle all rail profiles.
- Automatically opens when lowered onto head of rail.
- Safety Tested to 2.5x times its WLL.

**Description:** IPS has redesigned the venerable "Rail Dawg" to increase the working load limit while maintaining the same tool weight; **Rail Dawg II** tongs are now designed with a WLL of 6.0 tons. Manufactured from high-strength alloy steel, these tongs feature two lifting handles and a rugged design for long-term field performance of lifting short sections of rail.

\*All IPS tongs are designed for long-term field performance and are made from high-strength alloy steel. Every tong is individually magnetic particle tested, pull test certified, and engraved with a serial number to maximize worker safety.
