

## *RailRunner, Curved Rail*

Part no. 2310055A-C

This 22" long x 12" wide multi-rollered guide is designed to support and run curved 115-141 lb. rail into place through curved sections of track. Base plate has four mounting holes to fix the railrunner into place during use.

### Features:

- **Upper arm-rollers** maintain guidance through various arcs
- **Arms can be unlocked** for difficult rail placement.
- **Sturdy and durable** construction
