

## ***Rail Alignment Tool, Pull, 3 Piece***

***Part: 4023-74-IPS***

### **Technical Data:**

Make: IPS  
Weight: 63.5 lbs.

- Speedy and simple to attach to rails
- Fits all rail profiles
- Chain-and-hook assembly allows correction of wide range of rail deviations
- Allows temporary passage over Rail Pull saddles at slow speeds

**Description:** Three-part device designed to pull rails back into alignment (such as after a derailment) so that re-railing can proceed. Specially designed 1/2" thick steel, formed plate rail-pull clamps allow cars to pass over the clamps without damage at slow speeds.
